

# END TIME EVENTS

Eschatology, the study of End Time events, is one of the most controversial subjects in theology. There is much controversy simply because there are varieties of opinions on how individual events will happen, the sequence in which they will take place, and the identification of participants mentioned in the biblical record. As a group, we do not assert opinion beyond clear statements of Scripture about the details of what is yet to take place. This brief survey of our commonly held views about end-time events will concentrate on the basic essentials, leaving the more speculative aspects of prophecy to those who choose to suggest personal opinions on details not clearly delineated in Scripture.
